

NST, The Bowen Technique

“Balancing the Autonomic Nervous System”

NST Bowen therapy may help you with the following:

Asthma

Scoliosis

Relieve Pain

Decrease Stress

Treat Fibromyalgia

Hip and Back Problems

Muscular and Skeletal Injury

Autonomic Nervous System Imbalances

Chronic Pain due to Injury or Emotional Trauma

Tom Bowen, 1916-1986 of Geelong Australia developed this amazing and highly effective technique. A few of his associates documented this technique and started teaching it in the United States in the 1990's.

The Bowen Technique NST (neurostructural integration technique) uses a series of simple, gentle “Moves” across muscle and connective tissue. It is similar to tuning a stringed instrument sending harmonic vibrations that balance the body. Because it works in harmony with the body, the Bowen Technique is incredibly effective for most any muscular, skeletal or nerve imbalance. The technique is so gentle it can be used on anyone from infants to the elderly. **Bowen produces a deep relaxation** and can release blocked emotional energy which can assist the body in creating a context for auto-regulation/healing process to occur.

While substantial relief is often experienced with the first session, long term resolution is typical with the 2nd or 3rd session. Certain chronic or degenerative conditions may benefit from further or ongoing treatment.
